

Enterprise for Society Center

EPFL Research & Sustainability Symposium, May 16th 2024

About us

Three institutions of excellence...

Enterprise for Society (E4S) is a research and action center created by three institutions of academic excellence: the University of Lausanne through UNIL-HEC, IMD and EPFL, under the stewardship of its College of Management of Technology.

... joining forces for an ambitious mission

E4S's mission is to inspire and activate the transition to a resilient and inclusive economy within planetary boundaries, seizing of the opportunities and addressing the challenges raised by scientific and technological change.

Our action

Research

Interdisciplinary research to:

- Activate behavior changes
- Inspire new regulations
- Raise awareness around sustainable practices

Education

A joint **MSc in Sustainable Management and Technology** to:

- Train the next generation of leaders
- Shape new business models through impactful careers

Innovation

Expansion of in-house expertise to:

- Create and grow powerful networks of sustainable innovation
- Empower actors within the 3 institutions to effectively advance sustainable solutions.

Flagship initiatives
