

**Attestation**

We hereby confirm that

**Loïc Tissot-Daguette**

has received the

**School of Engineering  
Teaching Assistant Award**

for his significant involvement in a new bachelor course on advanced mechanisms and for proposing a new section on flexible beams in the spring edition of the course

“MICRO-201 - Conception de mécanismes II”  
given by Simon Henein

The Teaching Assistant Award is an initiative of the School of Engineering of EPFL to reward extraordinary involvement of PhD students in the lectures given in the Bachelor and Master programs of the school.

Each semester, awards are attributed to a student or a team based on nominations by the teachers and a detailed analysis of the candidate's involvement by the Award committee.

We congratulate Loïc Tissot-Daguette for his outstanding contribution and wish him a good continuation of his PhD studies.

Prof. Aude Billard  
Associate Dean for Education  
School of Engineering  
EPFL

Prof. Ali H. Sayed  
Dean of the School of Engineering  
EPFL
